Of **MONSTERS** and **GAMES**

PLAY19 - CREATIVE GAMING FESTIVAL takes place in Hamburg from November 14-17, 2019 and invites all gaming enthusiasts to explore the creative potentials of games!

Good or evil, visible or hidden, charming or fearful, big or small - at PLAY19 it's all about them: Monsters! Since the dawn of man, various fantastic creatures represent the fears and sorrows of their generations, created with the intention to understand or control them. What are the monsters of today? Do we retell old stories in games or invent new ones? Find out and participate in workshops, talks, discussions, the interactive exhibition, and various shows.

In addition, the most creative indie games will be honored with the annual **CREATIVE GAMING AWARD**.
